

Manganese Metal Company is committed to create sustainable growth and profitability by being the First Choice in pure Manganese.

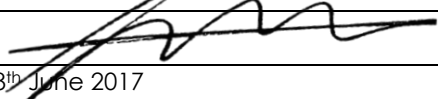

We strive to achieve leading industry practice and to meet and exceed customer requirements through reliable supply of Electrolytic Manganese Metal and related products in accordance to each client's specific product specification.

We will achieve our business objectives when we continually improve processes, products and services through the development of management systems enabling MMC to:

- Set objectives and achieve targets in line with the MMC business strategy;
- To promote and achieve quality throughout the business;
- Adopt a culture of continual improvement to exceed customer expectations;
- Regularly review our performance against agreed targets and objectives and compliance to relevant standards, laws, regulations and other relevant requirements;
- Create an awareness of each individual's responsibility towards quality;
- Develop our people to enable them to actively contribute to sustained improvement; and
- Identify, assess and manage quality risks throughout the business.

We at MMC will consider ourselves to be successful when we consistently:

- Maintain our operation within the planned goals and objectives;
- Establish and retrain our competitive position in the market as a responsible and reliable supplier of high quality electrolytic manganese and its manganese derivatives; and
- Surpass the needs and expectations of all our stakeholders.
